Filed: February 16, 2001)
For: SWING ARM FOR TWO-WHEELED)
MOTOR VEHICLE AND METHOD OF)
PRODUCING THE SAME)

SUPPLEMENTAL RESPONSE

Assistant Commissioner for Patents
Washington, D.C. 20231

RECEIVED
AUG 14 2002
GROUP 3600

Sir:

Supplemental to applicants' response filed yesterday, a copy of the "Substitute Specification and Abstract" which is referred to therein and which, by inadvertence, was not included with yesterday's filing, is submitted herewith. Also submitted herewith is a Request for Approval of Drawing Changes. The "Substitute Specification and Abstract" contains no new matter. In order that the examiner may satisfy himself in this regard, also submitted is a marked-up copy of the original specification and abstract from which the "Substitute Specification and Abstract" was typed.

Regarding the units for density, i.e., "g/cm³", used in the amended claims, it is respectfully submitted that those skilled in the art would recognize that applicants' teachings of density are in such units because the density of resin foams is conventionally, in modern practice, given in units of "g/cm³." Abstracts of Japanese Kokai Publications 06-136084, 08-012794, 09-087351 and 10-087871 are submitted herewith as representative of countless technical publications that could be

submitted in support of the foregoing.

Respectfully submitted,

George A. Loud
